

Mechanic – Full Time Position

This position is responsible for the maintenance of all Park District equipment. Ensuring the equipment is running in a safe and operable manner and maintained to manufacture and Park District standards. This position will perform some designing, fabrication and renovating of equipment through welding, painting and reconditioning. This position will work closely with supervisors, superintendents and foremen to schedule routine maintenance of equipment. This position directly reports to the assigned shop manager.

ESSENTIAL FUNCTIONS:

- Evaluation of this position is based primarily on performance of the following essential functions, which include, but are not limited to:
- Diagnose mechanical problems and perform preventative maintenance procedures on all Park District equipment.
- Instruct department supervisors in proper preventative maintenance practices and procedures. Ensure all manufacturers service bulletins and guidelines are followed.
- Repair and service equipment in a timely fashion in an effort to eliminate down time whenever possible.
- Corrects vehicle deficiencies by removing, repairing, adjusting, overhauling, assembling, disassembling, and replacing major assemblies, sub-assemblies, components, parts, or systems.
- Possess computer skills to help diagnose problems, search for parts or other information in regards to performing daily task.
- Keep accurate records of all maintenance work performed.
- Maintain an appropriate amount of parts and supplies needed to operate the maintenance shop efficiently.
- Design, fabricate and recondition equipment to accommodate needs or solve problems.
- Ensure all equipment is maintained in a safe and operable manner.

REQUIREMENTS:

Education/Experience -

- Two year degree from accredited institution in mechanics or related field preferred.
- Or, one to three years of experience in a mechanical field.

We are accepting applications through 4:30 p.m. on Monday, April 18, 2022. *Resume is required.*
